# IMU's N Series

## CPU Performance Beyond High-Spec 10th Gen i-Series

Fast, seamless performance with no slowdown—even when running multiple delivery and store management applications simultaneously

### Performance Chart (CPU Mark)

# Same CPU. Different Performance!

IMU's Thermal Technology Ensures Stable Performance and Long Product Life.

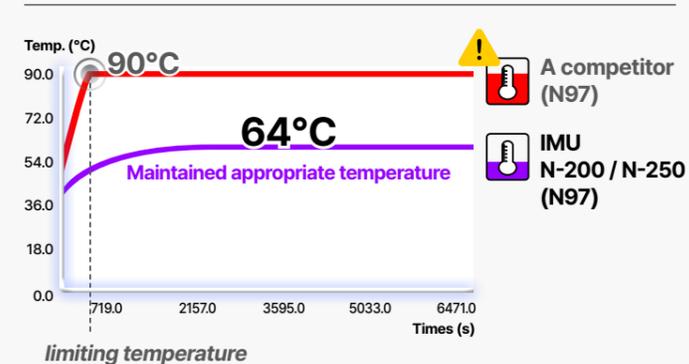

Effective CPU heat dissipation is essential for POS stability and long product life. Most high-performance POS systems depend on cooling fans, which are prone to dust-related failures.

## IMU Global POS Technology

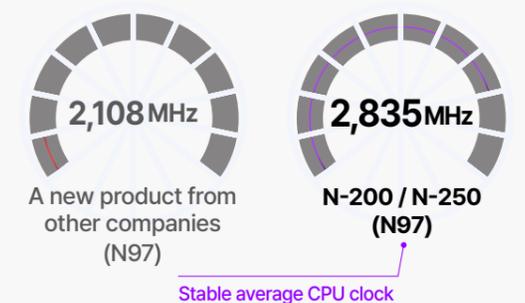

Fan-less Design with 10th Gen and Above Processors
